EDUCATION

Jan 2020-Dec 2025

Bachelor of Science in Computer Science

The King’s University | Edmonton, AB

Skills

- Frontend development: html, CSS, JavaScript, react.js, responsive web design, and iterated responsive user interfaces for web and mobile apps using Figma, wireframes, and interactive prototypes.
- Tools & Frameworks: Npm, node.js, GitLab, GitHub docker, visual studio code.
- UI/UX design: Wireframing, prototyping, Figma, interactive design.
- Backend integration: restful APIs, SQL basics.
- Other skills: Debugging, code organization, basic performance optimization, and responsive testing
- Version Control & Collaboration: Git, Git branching, merge requests, basic teamwork workflows.

EXPERIENCE

October 2024 – July 2025

UI/UX Designer | *Greenfield International Inc – Edmonton, AB*

- Designed and iterated responsive user interfaces for web and mobile apps using Figma, wireframes, and interactive prototypes.
- Worked closely with developers and product managers to turn business requirements into user-friendly experiences.
- Conducted usability testing and implemented design refinements to improve accessibility and user satisfaction.
- Maintained consistency using reusable components and design systems across platforms.

April 2023 – August 2024

Web Developer | *BCBM – Lloydminster, AB*

- Developed responsive and dynamic front-end features using React.js, HTML, CSS, and JavaScript.
- Integrated RESTful APIs to support interactive features like galleries, forms, and social media links.
- Built layouts that adapt to different screen sizes for desktop and mobile devices
- Fixed bugs and tested pages to make sure everything worked correctly.
- Followed basic web development best practices and coding standards.
